AUDITOR WARNS COUNCIL ON FINANCES

CHANGES MADE IN SECRET ON PEACE TREATY

Pact Altered After It Left "Big Four" and In Hands of Printer, Says Paris Report Gained From an Authoritative Source

Wilson Informed at Midnight of Tampering—President Now Dissatisfied With Terms of the Enemy Document

BY LOWELL MELLETT.
(COPYRIGHT, 1919, BY THE UNITED PRESS.)

PARIS.—That President Wilson himself is not satisfied with the German peace treaty was the answer his friends made Thursday to the accumulated objections of many of the American commission, which came to a head this week, thru tentative resignation of nine of the members.

The president, his friends said, believes the treaty is the best possible to obtain, considering all the conditions and circumstances, as near as he was able to make it to represent the principles for which he fought thru six weary months.

Associates of the president said when the whole story of the treaty is told, it will be understood why the treaty contains just what it does, and why there were certain omissions. It will be a story, they declared, of agreements which had been made one by one and flouted the next; of understandings painstakingly arrived at thru days and nights of labor lasting for weeks, only to be returned without forewarning. The president, it was said, accepts the treaty as an accomplished fact, however, now that it is its final form.

According to information from authoritative American sources, the final form of the treaty is not that in which it came from the printer. Whether this is the reason it has not been published cannot be stated, but there have been many changes in the text since it was printed.

(The big four was recently reported to have agreed not to publish the full text of the treaty until it is accepted.)

Some of these changes are due to the fact that as printed, it did not represent the exact agreements reached by the peace conference. As an example of this the night the treaty was printed, President Wilson was awakened at midnight, and informed of two important alterations. He called one of the "big four" on the telephone and the latter admitted he had made the alterations, but expected to explain them at day. Another such alteration was discovered later, affecting the Saar valley and resulted in a similar admission by a representative of a certain country. As a consequence, various members of the American commission have been going over the voluminous document with a fine-tooth comb ever since.

So far as calling the treaty a "privilege and harbors bill" as was done by one of the experts of the American commission Wednesday — Wilson's friends said this was wholly unfair to him, since it implied he had sold out to the enemy. As a matter of fact, they said, the president worked unceasingly to make the settlement of every issue square with his avowed principles, or when this could not be done, at least to obtain a settlement which the league of nations could be enabled to correct eventually, if it proved unfair or unwise.

WHITE THROWS DOWN GAUNTLET

Charges Gibson With Insincerity In Urging Dry Laws be Obeyed

COLUMBUS.—Charging that L. H. Gibson, manager of the Ohio Home Rule Association, is either "wilfully or ignorantly" in error in interpreting action of the courts relative to Ohio liquor laws, J. A. White, Thursday threw down the gauntlet to the wet interests.

"The wets have never dared to ask the supreme court to pass upon the scope of the home rule amendment," White said Thursday.

Gibson in a statement Wednesday, said: "The Home Rule Association urges all distributors of intoxicating liquor to strictly obey the laws of the state. We do not countenance any violation of the law."

"If Gibson is so urgent that saloon-keepers obey the law and be law-abiding, why does he oppose the passage of all emergency measures?" White asked. "It is only those who want to break the law that oppose this character of legislation and only those who want to oppose giving jurisdiction to the courts thruout the state to try liquor violations."

White, in his reply, takes a slap at the patriotism of the liquor interests during the war and quotes A. Mitchell Palmer, United States attorney general, as saying: "The liquor traffic of the country is a vicious interest, because it has been unpatriotic and because it has been pro-German in its sympathies and conduct."

"Gibson was willing to accept pay from this organization that was helping finance German propaganda in this country," White said. "And in view of that fact, his advice at this time should have no weight with the legislature."

Under the plan proposed the opposition will try to have the senate adopt a resolution setting forth its objections to the league covenant. The advantage of such action, senators point out, lies in the fact that it would relieve the senate of any responsibility for delaying peace and placing it upon the peace conference.

GERMAN DELEGATES AT VERSAILLES MUST KEEP THEIR PASSPORTS HANDY

The German delegates at the peace conference never venture forth from their hotel without their passports. The larger photo shows a French gendarme at the Hotel Suisse examining the passports of two Germans before they are allowed to enter for the conferences. Insert shows Baron von Lesner of the German diplomatic service (left) chatting with a French officer at Versailles.

NOTED SALVATION ARMY WORKER SPEAKS TONIGHT

Public Is Invited — City Campaign Solicitors Will Make Their Reports at Meeting

Citizens of Lima will have the opportunity at 8 o'clock tonight of hearing one of the best known Salvation Army workers in the United States. Colonel Mrs. Stanton, who has toured Europe with Commander Booth and acted as her secretary, will speak at Memorial Hall at that time.

Brigadier Samuel Withers, in charge of the northern division of Ohio also will be present and make an address. The meeting tonight will be held for the purpose of all city workers making reports on the campaign. It is the hope of the directors that the city's quota of \$50,000 will be subscribed by that time.

The report tonight will show whether the campaign has been a success or failure. Leaders have urged workers to put their best efforts into the drive today that success may be gained, pointing out that the Salvation Army has never failed.

There was much optimism at a meeting of city workers with County Chairman O. N. Young this morning and the belief was expressed that the city would go over the top by this evening. Reports from the rural districts of the county were to the same effect.

The workers are requested to be at the meeting at 7 o'clock to make their reports so that the doors may be thrown open to the public for the speeches at 8 o'clock. A supper will be served to the solicitors. Mrs. Luah M. Butler, who had charge of the doughnut day work, will make her report. She expects to be able to turn in more than \$1,000 which is considered a very creditable showing in view of the fact that the weather was bad yesterday.

Mrs. Butler announced today that the three winners, those who had taken in the most money for doughnuts and who will have their pictures in the annual directory of the City Federation of Women's Clubs, are Mrs. George Hall of Bellefontaine avenue; representing the Domestic Science club; Mrs. Charles Black of west Spring street, representing the canteen workers and Miss Conrath, teacher in the South High school, representing the girl workers of that school.

The club directory, the first one to be published here, will be paid for by A. W. Wheatley as the prize. It was stipulated that the three women taking in the most money should have their picture in the directory. It is being prepared now.

Rupert Declares Enough Money for Operation Last Half of Year Not In Sight and Urges Immediate Action on the Matter

Two Alternatives—Bond Issue or Cut In Police and Fire Departments of City. Favors a Bond Issue

Another warning has been sent to the finance committee of the city council by City Auditor Rupert concerning the financial conditions of Lima which will exist after July 1.

He urges speedy action by the legislative body in a letter sent to the members of the committee, George R. Muntis, E. R. Foster and C. P. Morey. He tells them it will be necessary to ask the voters to authorize \$30,000 in bonds or cut the police and fire departments the last half of the year.

The auditor points out that these are the only alternatives left since the governor has vetoed the special bill intended to give cities relief. He also says that even should the bill be passed over the veto it would not benefit Lima, since this city has no deficit to make up.

His letter follows:
To the Finance Committee of Council,
Lima, Ohio

Gentlemen:—
Confirming my advice of January 2nd, 1919, the City will go through to July 1st without issuing certificates of indebtedness for operation and maintenance, as all departments are being held within available receipts. I also stated that the last half of this year would bring a loss of revenue that must be overcome in one of two ways:—

First:—Start legislation at once asking the people to authorize at the August primaries, \$30,000 to maintain the present Safety Department until January 1st, 1920.

Second:—Reduce the Fire and Police protection of the City to a basis that will meet the present estimated receipts. I had hoped by this time the Legislature at Columbus would have provided a means for relief of Ohio cities, but the Governor having vetoed their bill providing a five-year levy, the matter now seems hopelessly deadlocked; in the meantime, we are approaching July 1st and must decide our own course.

In case the proposed bill would be passed over the Governor's veto, it would not change our status any, as we have no deficiency to July 1st, and in any event, would have to care for any levy made. Personally, I believe our Fire and Police protection should be maintained if possible, for at least the last half of this year, as to the other departments, I believe they can be retrenched sufficiently to carry them through to 1920 without the necessity of borrowing.

Respectfully Submitted,
D. L. RUPERT,
City Auditor.

Last January Auditor Rupert told the council that it would be possible to get thru the first half of the year on the money available after retrenchment had been made, but warned the members that the last half would be a difficult period. He urged that some action be taken to provide for operation. Since none has been taken, his letter just sent to the finance committee is to call to attention that the time is growing short.

Lima, he says, enjoys a far better financial condition than most of its neighbors. Retrenchment has been necessary in practically every municipality and in many it has been necessary to lay off city officials. Practically all have issued deficiency bonds. This has not been done in Lima, and not a cent deficiency exists.

Mr. Rupert says it is imperative that the council act at once. Legislation should be taken on the bond proposition, he says, in order that it may be put up to the voters at the coming primary.

He favors the bond issue since it would permit the operation of the present police and fire forces, which are none too large now. Retrenchment in these departments, it is said, would seriously hamper their efficiency, a step which is regarded as poor economy.

A bond issue voted by the people would not further complicate the city's financial condition since it would come without the limitations of the one per cent law and would not cut the operating revenue.

It is expected that some definite action will be taken by the members of council immediately.

WOULD HOLD MEN RAILWAY CLERKS BOOST SALARIES

Brotherhood Convention Raises Pay of President to \$10,000

CINCINNATI — Protests against what are claimed to be extravagant salaries were drowned with cries of "cheap" and "piker" as the national convention of the Brotherhood of Railway Clerks here spurred on and voted these salaries to national officers:

Grand President, \$10,000 a year; Grand Secretary-Treasurer, \$7,500; Grand Vice Presidents, each \$4,000; organizers, each \$3,500; editor "The Clerk," \$3,600; members of the Board of Directors, expenses. It was remarked that the salary voted the Grand President is more than the salary of a United States Senator, as such as the salary of the Governor of Ohio, and more than many technical experts in the railroad business receive. The salary of the Grand President has been increased to 6 per cent for the months of May and June. These releases will reduce the entire number of enlisted personnel in the navy, taking into account all new enlistments made since the signing of the armistice to 250,000 men by July 1, 1919.

The convention voted to give to the tellers of the election \$3 a day in addition to the per diem and mileage allowed to all delegates, and this, despite much dissatisfaction regarding the time it has taken the tellers to canvass the vote on candidates for office.

Seven Transports Land Men In New York—Ohioans Among Number

NEW YORK —More than 30,000 soldiers are due to arrive in New York before night.

If the fog lifts so that all ships may pass thru Sandy Hook all records will be broken Thursday. There are seven transports, carrying 33,363 troops due. The best day's record previously was 23,089 American fighters repatriated in New York in 24 hours.

FEAR ARMY WORM

Entomologists See Menace to Wheat in Pest

WASHINGTON—Reports to the department of agriculture Thursday show that the 17-year locust has put in his appearance in nearly every state east of the Mississippi river. Despite the fact that this threatens to be perhaps the biggest locust year since 1868, department entomologists are not alarmed—but they are worried about the army worm.

The army worm has appeared in Texas and begun a march north. He is a real danger to the country's bumper wheat crop, they say.

The worm can be killed by burning grass or straw over the spots where they appear, or by spraying with a mixture of paris green.

The test of war is the test of service. "Work or fight" was the alternative of war. Possession, titles, traditions, were discounted.

Mobilizing a nation carried these standards back to industry and civilian life. With them went a new impulse of equality.

We praised the ship worker, munition maker and even the back yard gardener and at least pretended to despise the lounge-lizards of the clubs and hotels lobbies.

If this was but a pose and a temporary affection on the part of some, the fighters took it as they took many other things, more seriously. Like other things, this democracy of service was very real at the front.

The boys are bringing this religion of service back with them.

This sentiment receives powerful reinforcement from the whole great labor movement. That movement has always held firm to the test of service.

"There's a Reason"

When a Girl Marries

By ANN LISLE

"Don't you see that I can't wear that robe?" I asked suddenly, with a feeling that if only I could appeal to the kindness and consideration I had felt all through that humiliating evening of Jim's absorption in Evvy, I might find in him a real friend after all.

"Can't? Can't? Won't, you mean—because after all my longing to be a real friend to you you still distrust me—dislike me, I sometimes fear."

Tom laughed shortly, a curt, hurt, mirthless laugh. And I was even a little more sorry for him than I had been the moment before, and conscious, too, in a corner of my brain that Jim was taking an unaccountably long time to say good-night to Evvy.

"I haven't trusted you," I said honestly. "And besides I never could see why a married woman should need men friends if her marriage is—perfect. But here in this big city friendships with men seem to be granted, almost forced on women by society, and even by their husbands. I see now that such friendship may be broadening and fine, and honest and loyal, too, and never take anything or want to take anything that belongs—to love."

"You dear, solemn little preacher-lady!" said Tom, in a low, vibrating voice. "There isn't another girl in all the world like you! I want your friendship. I want it. Can't I have it?"

"If you were always like tonight," I began half doubtfully, and then Jim came across the sidewalk.

He was whistling and whirling his cane jauntily, and his limp seemed jaunty, too.

"That Evvy girl's a tonic," he said. He spoke as if he were explaining. "She's a nice kid. So's Phoebe. They hit it off remarkably. It was a pretty good party, wasn't it, Tommy?"

"It was," echoed Tom. "It wasn't!" he said, with the edge of my lips, and I had to bite them hard to force back my exclamation.

"Shall we drop you at home?" asked Jim.

"Please," replied Tom, and so we whirled across to his street, bade him good night and then rolled on again in a little stream of unimportant conversation about the musical comedy and its star and what a wonderful Lobster Thermidor Pierre, of the Walgrave, prepares.

I didn't trust myself to say a serious word. I might have burst out with a plea that Jim be a little more circumspect in his treatment of Evvy when I had intended plead-

ing with Jim to tell me a little more about his new firm.

"You're as quiet as no mouse ever was. Mooning about Betty again?" Jim demanded.

Then I realized that he hadn't even asked about our discovery of Betty's whereabouts.

That marked a milestone in our marriage. Jim is, Jim always will be my man. But a change has come into the meaning of those words. He is my man to love, to cater to, to share my days and my life with. But not my thoughts, not my experiences. I can't tell those to Jim when he is having thoughts and hopes and experiences of his own. Because then mine won't interest him.

He doesn't think of me as having a life of my own, under the surface and hidden away unless I choose to reveal it. He thinks that he can just look at me—at the outer shell of me—and know how I feel and what I want, because I am his wife. And I want to tell him about the things that are hidden away in my heart, the things that are—me.

Suddenly I heard Jim's voice, irritated and commanding. Then I realized that I had been so concerned with thinking things out for myself that I hadn't answered him.

"Now look here, Anne, things have changed," he was saying. "Our days of skimping and saving and living like hermits are over. We can afford to do differently now. And, by Jove, when I spend a wad on an evening's good time, I'd like to have the satisfaction of seeing my wife have a good time."

"I did, I will try," I began confusedly.

And then, fortunately, the taxi drew up at our door. Taxis had been few and far between in our

lives hitherto, but whenever we took one it had been my habit to wait with Jim while he paid the fare. I wanted to be cold as long as he was, or brave the rain while he did. But tonight I ran into the hall without waiting for Jim.

A tall figure rose from the divan in the corner and came toward me. It didn't need the English uniform to tell me that it was Terry. No other man walked with such a protective stoop and such a springy, impatient stride.

"Betty," he said in greeting, and with no thought of consciousness that other greeting might be customary "Betty. Have you learned anything, Anne?"

I reached my hands up to his shoulders.

"Terry, lad, we've found her. And she's all right. Just—having a rest." I said, wondering how he'd take his good news, wondering if his deep feeling could break through his habitual reserve.

MICHIGAN MEN IN THE FRONT LINE

Bearing Brunt of Bolshevik Offensive in Far North, Says Report

LONDON.—Michigan infantrymen are bearing the brunt of the defense against the Bolsheviks in the Toungas sector of the Archangel front, Lieut. H. M. Wyckoff, American Red Cross reported. Lieutenant Wyckoff arrived direct from North Russia.

Co-operating with French troops, the 339th regiment from Camp Custer has been holding the snow-bound front line most of the winter, he said. It will receive its share of the expected Bolshevik offensive this spring.

At the front the Americans live in snow-topped dug-outs a short distance behind an irregular line of trenches. They spend every other month in barracks in rear areas, alternating with the French at the outposts.

The killed are buried where they fall on the frozen battlefield. Some American graves are now behind the Bolshevik lines as a result of the Allies' retreat. Others are under fire. Wounded are transported on sleds to rear hospitals and finally to Archangel.

Wisconsin engineers have won highest praise from British and Russian army chiefs, Wyckoff said. At Archangel the Americans are housed in comfortable barracks. The morale is good, although the men are anxious to get home.

Americans are operating with the British on the Dvina and Voga rivers and with the French along the Vologda railroad, Wyckoff stated.

He told of the woes of the Red Cross when it founded a weekly newspaper at Archangel. English type was not plentiful in Archangel and the "American Sentinel" finally appeared with a front page that would have delighted O. Henry. Seven or eight, distinct families of type were represented and when they ran out, the printers had slipped in Russian characters that looked something like the English letters. Every edition contained every piece of English type in the town.

Captain Roger Lewis, formerly an American press association correspondent at Petrograd, volunteered as editor. Of the four pages, one was devoted to comics, one to letters, and contributions from soldiers, a column to editorials, and the balance to the allied communiques received at headquarters. Rein-deer drawn sleighs carried the papers to the men at the front.

During his tour of the fighting areas, Wyckoff photographed the grave of every American soldier fallen in action. Every mother who has lost a son in that frozen country will this summer receive a picture of her boy's grave, showing the neat wooden cross at the head of the mound.

He estimated the loss in killed and died from influenza at 200 for all fronts. Of these about 180 died after being brought to Archangel. Of these latter, about 100 died from wounds in action and about 80 from influenza. They are buried in a little Lutheran cemetery. Before leaving, Ambassador Francis bought a section of this burying ground and dedicated it to American soldier dead.

DECLARES FREIGHT RATES MUST BE INCREASED 15 PERCENT TO SAVE ROADS

ST. LOUIS.—Freight rates must be increased 15 per cent if the railroads are to be saved from bankruptcy, Samuel O. Dunn, editor of the Railway Age, told the American Iron, Steel and Heavy Hardware Association convention here Wednesday.

This increase will be necessary whether the railroads are operated by the government or the private owners, said Dunn.

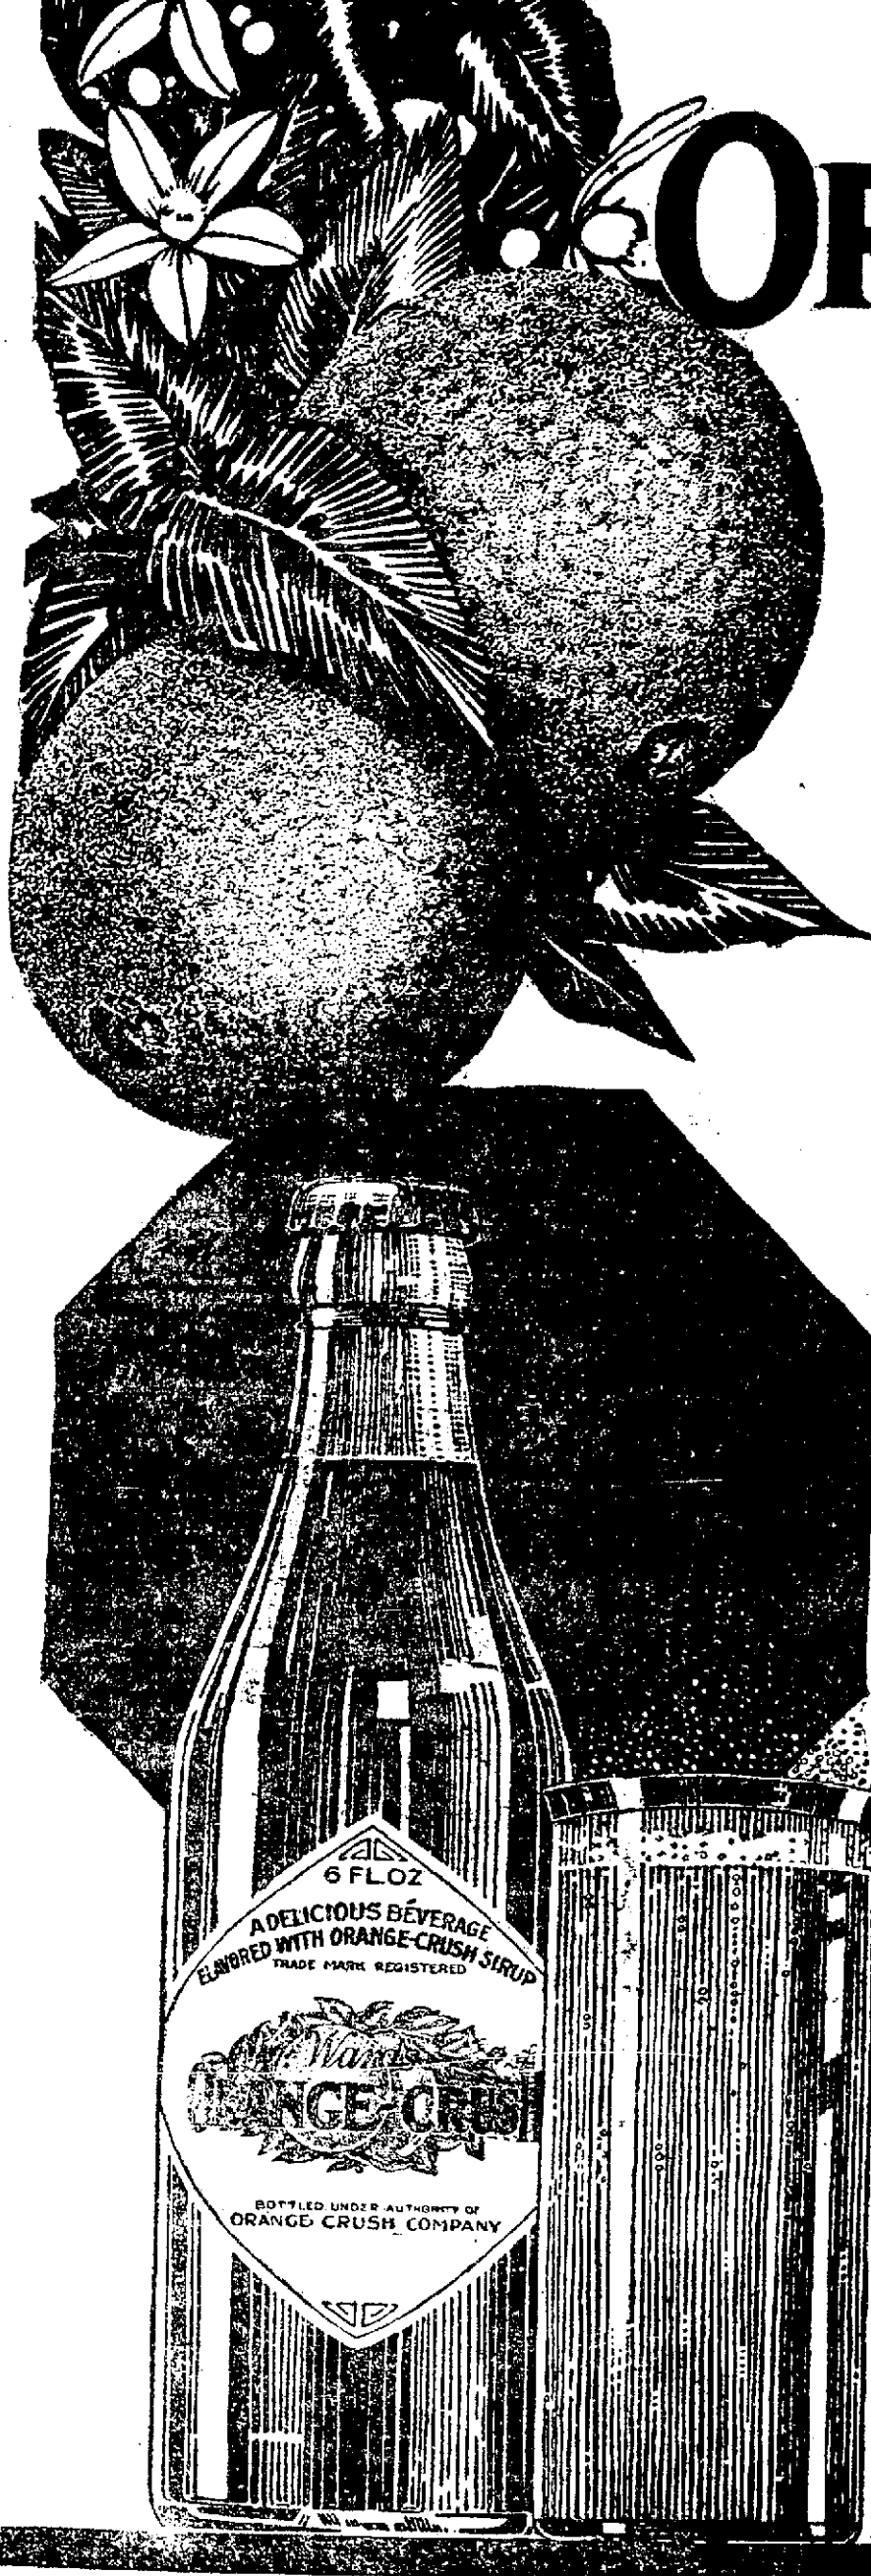

If the insufficiency of revenue for 1917 is relatively as large as it was during the first three months of 1918 and the present passenger and freight rates are continued, the end of the year will find a deficit of \$500,000,000, Dunn said.

PREVIOUS HIGH RECORD IS PASSED BY EXPORTS

WASHINGTON.—April exports passed the previous high record by nearly \$100,000,000, the department of commerce announced Wednesday. Total exports last month were \$715,000,000 against \$623,000,000 last January, the previous record.

Imports fell off \$6,000,000 last month as against those of April, 1918, but gained \$5,000,000 over March this year.

SUFFRAGE FIGHT NOW GOES OVER TO THE SENATE

Women's Victory Predicted— Congress Begins on Big Money Bills

WASHINGTON — Suffragists Thursday moved their camp to the senate whence they hope to obtain, within a few weeks, the favorable vote submitting the national suffrage amendment to the states for ratification.

Following their 304 to 89 victory in the house Wednesday, suffrage leaders predicted the senate, on its third opportunity in two sessions, will finally approve the resolution.

Senator Hiram Johnson, scheduled to be chairman of the suffrage committee, announced that if he is given that place, he will lose no time. "I will get the committee together as soon as possible," said Johnson. "Immediate committee action will bring the question before the senate before the league of nations and peace treaty or other great problems engross it."

The vote is expected to be much closer in the senate, than in the house, and may not be reached so quickly as in the house, where there was but two hours debate before the vote.

Senate "antis" said Thursday the suffrage claims of 65 votes for the resolution are extravagant.

The two votes on suffrage in the senate last session showed suffragists gaining. The first in October, 1918, showed two votes lacking. The second, last February, showed one vote needed.

SENATE CLASH AVERTED

Congress is nearly ready to continue its grind on big money bills. The house met Thursday to take up the Indian appropriation bill and other measures.

Senate Republicans, taking advantage of the two-day adjournment of the upper branch, are reconciling their difference and preparing to get down to business. The threatened clash of Republican "regulars" and progressives over some committee appointments, including that of Penrose as chairman of the finance committee, and Warren, as chairman of the appropriations committee, is understood to have been averted.

House Republicans pointed to passage Wednesday of the woman suffrage amendment as an indication of the speed with which they will dispose of important measures during the session.

COMMITTEES ORGANIZE

Committee organization is being hastened in both branches.

The house military affairs committee will meet for organization Thursday, Representative Anthony, ranking Republican member, announced. No business is expected to be transacted at the first session, he said.

Representative Kahn, California, chairman, probably will reach Washington Friday. He has been in Europe since March 5. With his return the committee will begin the development of its new policies, Anthony announced. These depend largely on recommendations expected to be made by Kahn as a result of his study of conditions in the American expeditionary forces.

LUXURY TAX REPEAL

The house ways and means committee will probably follow President Wilson's recommendations at least on two points. Members said Thursday they were prepared to rush legislation repealing the luxury tax and giving protection to the "baby" dy-

industry.

Chairman Fordney, however, will urge going further than shielding the dye makers from the inroads of German competition, he declared. "I was glad to know the president would admit the dye industry, created out of a war necessity, needed protection," Fordney said. "But the country wants something more than protection for just that one industry. The president's notion about it being fortunately unnecessary for a general revision is wrong, I believe."

The committee majority will go ahead, so far as possible, with the announced policy of the Republican caucus, leaders said. They are expecting to meet opposition in the committee. Formal meetings of the committee may not be held until next week, but an outline of proposed action already is being drafted.

STRONGER MEN TAKE THE LEAD

They Have Nerves of Iron and Real Red Fighting Blood

Vital force is the material from which leaders in all walks of life are made. It is well worth getting and holding.

The health and nerve of the athlete is what Nature intended every man and woman to have.

The blood of an athlete is pure and red, a strong heart pumps and drives it through his body. No wonder that every inch of his system is filled with energy and health. His nerves like iron, spirits high, hard tasks a pleasure and life one song of joy.

A leading Doctor says, "Everyone should feel this way. That if you are not red blooded, are nervous, all run down and on your last legs, for you to build up your blood and nerves with exercise, fresh air, nourishing food and Nature's great prescription, Phosphated Iron is a real blood and nerve builder."

He also says, "Phosphated Iron feeds the blood cells with iron and nerve force, and that leading specialists are now using it successfully all over the country, that it is one of the few remedies that better class doctors can now depend on to produce results."

Special Notice: To insure doctors and their patients getting the Genuine Phosphated Iron we have put in capsules only, so do not allow dealers to sell you pills or tablets.

THIN-BLOODED PEOPLE OFTEN CHILL EASILY

Weakness, Sleeplessness and
Loss of Weight Are Indica-
tions of the Need of a
Tonic

Pallor of the lips, eyelids and gums indicate a watery, weak condition of the blood. Anemic people generally become exhausted easily, the digestive organs are weak in their action and the run-down condition is further shown by the victim's inability to sleep or to keep warm. These symptoms indicate an immediate need of a restorative tonic like Dr. Williams' Pink Pills for until the blood is built up the patient is an easy victim of colds and contagious diseases.

The experience of Mrs. May Stoner, of No. 441 East Southern avenue, Springfield, Ohio, is typical of many others who have taken this blood builder. She says:

"I was in poor health for nearly a year, so badly run down that I didn't have any energy for my work. I was pale and cold all the time. My appetite was poor and sleep didn't refresh me. I worried greatly too, when there was really nothing to worry about."

"I saw a newspaper announcement of Dr. Williams' Pink Pills and after I had taken half a box I could see an improvement in my condition. I slept much better and as I continued the treatment the stomach trouble disappeared, my color returned and I no longer felt cold. I can now do my work with ease. Several of my friends have taken Dr. Williams' Pink Pills on my strong recommendation."

Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y. Write today for the free booklet "Building Up the Blood."

But for cold storage the armies in France could not have been fed. And yet no tribute has been paid to the remarkable man who was one of the greatest benefactors the world has known.

Tellier Was Inventor
The inventor of cold storage was Charles Tellier, a mild, shrinking little Frenchman who gave his life to study.

For 20 years he experimented and then, after long effort, he induced a wealthy man of Paris to test in a small way, the system of preserving meat which he had devised.

From Argentina he shipped in a sailing vessel a cargo of meat in receptacles out of which the air had been pumped so a vacuum was created. The vessel was storm-tossed for weeks. Not until 100 days after leaving did the ship arrive in France.

Then when the cargo of meat was examined it was found to be as fresh and pure as the day it was put aboard.

Methods Revolutionized
That voyage marked a revolution.

But Charles Tellier profited little. The invention was stolen from him or taken by trickery from him by those he begged to aid him in giving a trial to his method.

One day, five or six years ago, someone noted the fact that an anniversary of the arrival of the first shipment of cold stored meat in France was near. The government took cognizance of the fact and a call was issued for Charles Tellier to come to Paris.

The old man, trembling with embarrassment, responded and when he presented himself at the Tuilleries he found the greatest men of France had assembled in his honor. His praises were sung by poets and statesmen. The grand cross of the Legion of Honor was bestowed upon him and he was hailed as one of the noblest sons of France.

And a few months later he died—died of starvation—he who had given to the world more food than any million men that ever lived before or since.

DEMISE OF OLD KING BOOZE TO BE CELEBRATED

Lima Planning Much for Saturday Night, the Last Wet One Here

Dr. Law has given Old Barr Lee Korn but a few more days to live. His demise is expected Saturday night, and many, yes, countless thousands, will sit up with him, and mourn his death.

His popularity in Lima has been great, and great will be the fall thereof.

He came to Lima in the early 50s, in 1853, to be exact, locating in his first home "The Old Fort," which had been built by Daniel Musser. He was persuaded to come to Lima to locate permanently thru the urgings of Wolf and Meyers, who rented the "Old Fort" place, and invited Barr Lee Korn to become their guest.

It was not his first visit to the city, he having been here during earliest years to cheer and enliven crowds on festive occasions, and was always invited to return.

Saturday night will see the grand finale. Hotels, cafes and bars are preparing to drive Gloom out the back door and entertain joy within. Clubs have planned long-to-be-remembered celebrations.

Sixty years ago, one Saturday night, the city turned out in celebration of old King Booze, and bottles and barrels of the choice liquid were turned into the streets, and burned with a blue blaze all night.

This Saturday night will see times changed. The stuff is far too expensive to burn, but it is expected that most all of the local stock will be bought up.

Reservations at the clubs and cafes have been made in great numbers. The Elks Club is planning an immense affair which it has termed "The Dry Wake." The Arabian Nights entertainment will be made a back number by this "Night of Nights" and the members are keenly anticipant.

Manager Morrison of the Hotel Norval has arranged to hold the 1920 New Year's Eve celebration a few months ahead of schedule and have it Saturday night. Cabaret, dancing, music, vaudeville, favors, surprises, and joy in all forms are to be featured, and the occasion promises to be a complete success.

Other clubs, and other cafes are planning similar parties and the crowd is expected to fill the joy marts to overflowing.

San Cura Ointment is guaranteed by Hunter's Drug Stores, and Butler's South Side Drug Store, who are agents in Lima, to help any of the above named diseases or money back. SEASON IS HERE BUT TOO COLD FOR STRAWS

The straw hat season has been here for a week, but very few "straws" have made their appearance on the streets.

Local haters report that sales have been almost negligible thus far. Cold weather has dampened the spirits of ardent "fans" who usually are among the first to be seen wearing the summer head-gear.

G. O. P. WELCOMES WOMEN VOTERS

Offered Full Equality With Men and Not as Separate Group

WASHINGTON.—Women voters will be welcomed into the Republican party as individuals on full equality with men and not as a separate group, Will Hays, chairman of the National Republican committee said Thursday.

His statement of the future attitude of the party toward the rapidly increasing women vote was made at a conference of women and men Republican leaders from all states. It follows passage of the suffrage amendment in the house by a large majority foreshadowing ultimate national suffrage.

There is but one possible rule for a political party, Hays said. That is that rights of the individual members to participate in the management of the party's affairs must be and remain equal. The Republican women in this country are a part of the party membership. They come into this party actively not as women, but as voters entitled to participate insofar as the present legal limitations permit, just as other voters.

WIRE COMPANIES PREPARE TO GET PROPERTY BACK

Telephone and telegraph interests throughout the country are urging that speedy and satisfactory settlements be made so that the properties taken over by the government July 31, 1918, under authority of congress as a war measure, may be turned back to the private ownership. The expenses having increased, has cut down the revenues of these companies, it is said. The regulatory authorities of the states, which are slow to be settled, are considered a hindrance in the turning back of these companies to their private ownerships and the directors of both the telephone and telegraph interests including the Lima Telephone and Telegraph companies are urging co-operation with Congress and officials of the Government on these matters.

HON. JOSEPHUS DANIELS,
SECRETARY OF THE NAVY,
WASHINGTON, D. C.

"I see they have voted the country back to the states," said one back private to another.
"Just as I expected," said the second B. P. "I knew my mother-in-law would put something over on me while I was away from home."—The Spiker (published by the 18th Engineers) in France.

The good fairy gave her but two wishes. She wished for a husband and then had to use her other wish to get rid of him.

GREAT VICTORY FOR TIGHT SKIRTS

Jennie Berger, New York, was arrested on a charge of disorderly conduct. A witness said she kicked a man.

"Judge," said Jennie, "I couldn't kick anyone with this here tight skirt on!" And she showed the judge how she couldn't kick. Skirt too tight.

Magistrate Douglas thought so, too.

SAY, FOLKS, HERE'S A DANDY WAY TO SAVE, AND IT ISN'T COPYRIGHTED, EITHER

A man who used to buy his grape juice by the pint was persuaded by a friend to purchase a small barrel on economical grounds. The evening the barrel came the first pint was consumed. The wife said, "Well, William, we've saved something on our grape juice tonight."

"That's so," replied her husband. "Let's have another pint and save some more."

The entire police force of North Wales, Pa., has resigned. He quit because citizens were getting too much amusement out of his name—Constable Stephen Constable.

Speaking of "comic-strip" artists, did you ever see Goldberg in a bathing suit?

New York widow tells the court she cannot keep her little boy on \$5,000 a year. What is she going to do when he grows up and brings a wife home to stay?

Home Owners the Answer

LESS THAN TWENTY PER CENT of the striking Willisy-Overland employees own their own homes in Toledo, according to a statement in a Toledo paper. Here is a strike in which the men are not complaining regarding wage but are seeking to establish a 44-hour week. Were a vote to be taken it is safe to say that nearly all the twenty-per cent home owners would vote against a continuance of the strike. They have all to lose while the eighty per cent of floaters and foreigners have nothing to lose, being able to pack up and move on to something better, perhaps something worse.

THE FUTURE OF ANY CITY as well as the future of any manufacturing enterprise has come to the stage of being based largely on the home-owning element in either corporation. Lima is noted as a city of home-owners; the percentage can be and is being increased each year. Every merchant, every manufacturer, every employer of whatsoever kind must in the future aid employees to secure their own homes. When you have a capable, efficient workman, that workman no more wants to jump up and leave than you want him to leave. The employer should now and then take a survey of his most worthy; call them in and ask why they don't buy a property for wife and the kiddies. Ninety-nine out of one hundred will answer that they would like to do so, but haven't the cash payment. There is where the employer must show his colors, and on the easiest possible terms, must advance a portion if not all of the required cash payment, and get that man in his own home. He and his good wife will do the rest; they will never move unless it is into a better home.

MISS LIMA: "Many wives will be sending for physicians when Hubbies hang around the house evenings next week."

An American Message

CRITICS OF PRESIDENT WILSON can find no crumbs of comfort in his sterling American message to Congress. He parted ways with the radicals who see government ownership of utilities as a cure-all, and at the same time in the face of the country's action for a dry nation by amendment to the constitution, he nevertheless recommended the repeal of the July first war emergency dry act.

WITH OHIO HAVING VOTED DRY and with the country having been declared dry by amendment, many people are confused over the various prohibition decrees. First, Ohio goes dry Monday regardless of the nation-wide action by amendment or by congress. Secondly, the country goes dry July first by war-decree, unless congress acts upon the President's recommendation and repeals this measure. Thirdly, the country goes ultimately dry for all time by constitutional amendment in January, 1920.

THE PRESIDENT'S MESSAGE in business matters is most constructive. He appeals for fairness between capital and labor; he asks protective measures for our infant industries, such as dyes and chemicals, which grew up during the war when German-made goods were barred from our markets. In statecraft it is a most wonderful document; in common sense, it is truly American.

Today's Health Hints

BRUTE HUSBAND

She is one of the best housekeepers in her community. She keeps her children in marvellously respectable condition, although they are twelve boys, and live boys at that. She bakes like a professional baker and on nearly the same scale. She sews and mends and dyes and plugs away at her job 765 days in the year, twenty-four hours a day.

The brute husband neither drags nor runs around nor otherwise bothers his sorely responsible wife. He is an exceptionally good provider. He knows how to make money and how to save money. He owns his home and he has built several other homes as an investment which brings in good returns. He has a calling which assures him a good living, but he puts in all his spare time doing things for his family.

Yes, the man is a downright brute and no friend of the mother of his children. His right name is not Brute Husband at all. His name is Brute Husband.

Why, when poor mother craves for a look at things in the shops or for a visit to the movies or something, she has to SNEAK out for her brief respite, first hustling around to find some reliable nurse or neighbor to keep an

eye on the children pending her return.

Brute Husband thinks the conditions surrounding his work are well nigh unendurable—yet he has short office hours and frequent holidays and a good thing. And the hard-headed wretch thinks it is a shame that women should want to be running around to shops and going to the movies and all that sort of thing when of course a mother's place is in her home. Why, Brute Husband asks nothing better than a day or an evening at home. He just can't see why a woman should wish to leave her home, even for a few hours.

Ask Brute Husband to stick to HIS job twenty-four hours a day, just for a few days and you'd hear something. Indeed you would. But it is all right for Slave Wife.

This is no plea for more servants in the home. Too many maids and cooks and other servants are spoiling American home life right now.

But, darn you Brute Husband with Slave Wives, have a heart. Show a little appreciation of a good thing. There is nothing that helps a man so much as a good wife, a good housekeeper. I mean not a mere appearance or liability. If he is lucky enough to have one he ought to know enough to take good care of her. She needs a bit of recreation as well as any other person who works for a living. Shorten her twenty-four hour workday as much as you can. Give her every opportunity to get away from her job a while every day for her own good and for the good of the job.

There is no excuse for the Slave Wife.

There is no defense for the Brute Husband.

QUESTIONS AND ANSWERS

Old Joke on Fat Folks
Is it true that soda baths will reduce flesh? Will a bath containing epsom salts reduce flesh? What can be used in a bath to reduce, if these are not effective? (Miss M. B. M.)

ANSWER—Soda baths will not reduce flesh. Epsom salt baths will not reduce flesh. I don't know how a flesh-reducing course might be used in a bath, but I suppose a detergent woman might take her course while being bathed. But as a general rule two minutes is long enough to waste in bathing, and the other eight minutes in reducing by over-the-counter Reducing Baths are generally prescribed only for persons whose obesity is mostly of the head.

Children Like Raw Vegetables
My little girl and boy both like raw vegetables—potatoes, cabbage, carrots and the like. Whenever I peel or prepare such vegetables they plead for pieces to eat. Is it injurious to give

them pieces, well cleaned? (Mrs. J. M. J.)

ANSWER—On the contrary, it is beneficial. A good way to administer nutrient iron and certain valuable digestive elements.

Who's Who In the Day's News

With the appointment recently of Gen. T. Coleman du Pont as deputy police commissioner of New York city, the police force of the American metropolis purged from the million-dollar class to something more than

billionaire. For General du Pont's wealth, piled atop the hundreds of millions represented in four other men on the force, Allan A. Ryan, Dr. John A. Harless, Rodman Wanamaker and Edmund A. Guggenheim, makes

T. C. DuPont a pyramid of staggering proportions. General du Pont is undoubtedly one of the richest men in the country. When he retired from E. I. du Pont de Nemours & Co., of which he was president, after making millions in the powder business, he built the Equitable Building, one of the largest office buildings in the world, and purchased from J. P. Morgan a majority of the capital stock of the Equitable Life Insurance Society.

A little later, after recovering from an operation, he formed a coal company at capitalization of \$6,000,000, and in February, 1913, paid \$3,000,000 for the Waldorf-Astoria. He is head of the Greeley Square Holding Company, which owns one of the largest New York hotels. Another large hotel in Wilmington, Del., is owned by the commissioner, and he is director of the Empire Trust Company, the National Surety Company and a score of other banks and corporations in the east.

General du Pont is fifty-six years old. He was born in Louisville, Ky., a son of Blidermann du Pont and Ellen S. Coleman. His family for generations has been identified with the manufacture of powder and explosives. He studied at Urbana University, Ohio, later at the Chaucey School in Boston, and was graduated an engineer from Massachusetts Institute of Technology. Then he entered the steel business.

In 1889 he married Alice du Pont of Wilmington, a distant cousin. They have five children. In politics the new deputy is a Republican. He was chairman of the Republican state committee of Delaware in 1904, and was a member of the Republican national committee. In 1908 he was chairman of the speakers' bureau of the national committee. The boom for him as candidate for the Republican nomination for president was short lived.

CONFESSIONS of an EVERY DAY WIFE

BY IDAH M'GLONE GIBSON

"Yes, my dear," said Robert, "I heard what Sally Saunders said about her relations with Emil Bauer but you must remember that the wrong she did Tim never harmed him because he never knew he had been wronged. She has hurt herself greatly, but your brother died a hero's death before her sin could break his soul. Besides, Margot, you must remember that my mouth is sealed by professional ethics. I can tell nothing I hear in the sick-room."

"I have been wondering, Robert, if Sally's secret was mine to tell even to Theo."

"You have not told Teddy?" he asked in surprised tones.

"Not yet, although Sallie Saunders has hurt me and mine as no other woman—or man for that matter—has ever done, yet some way I could not tell the sordid details of that sad affair even to Theo."

"You are a good girl, Margot. I am going to change my mind about you again, even though I see you wearing that bit of red ribbon which I saw a man slip into your car this morning."

"What do you mean, Robert?" was my hurried exclamation as my hand went up instinctively to the ribbon I had absent-mindedly tied in the buttonhole of my coat.

"This morning," Robert explained, "I saw a man open a car about a block ahead of me. You know I am so near sighted that I could only be sure it was a man."

"Some way I thought even from that distance, that he acted rather suspiciously and when he shut the door and walked away, I was quite sure he had stolen something."

"As I came nearer I recognized your car, my dear Margot. I naturally looked in to see if he had taken anything and I saw a bit of ribbon. I did not know that Major Gordon wore his ribbon of the Legion of Honor?"

"I do not know that he does," and then I was furious with myself for blushing.

I knew that Robert was very curious, especially as I did not offer to remove the ribbon. I also wondered if my playmate had played unfair and learned my name after I had told him that we must let the day go into the place of forgotten things.

Sometimes I think that memory is like love, we hardly know when it comes or when it will go. At least we do not know the things we will remember and live over again and again. I knew my playmate had not forgotten any more than I had and I clung to the little bit of red ribbon because it told me so.

I said very little more to Robert as we rode home. I could see he was engrossed with his thoughts as thoroughly as I was with mine.

When we arrived I went directly to my room and found that Theo had gone out. He had left a little note for me saying that he was going to the club, that he found the house too

PROFESSIONAL ETHICS

"dull and lonely without me."
"By the way," the note ran, "remember that newspaper editorial you and I read some days ago and enjoyed so much. I picked up the paper today in which apparently that same chap has written another article and I cut it out to bring to you."

"These editorials sound so much like you, Margot, that I would think you had written them. Just read

this one and go to sleep. I'll come at sometime between twelve and one."
It was not one o'clock as I read the note but I had begun to realize that I was powerless to keep Theo away from his men friends. At least three times a week he went out with them, seldom returning till the next day.

RAFFLE WHEELS STOPPED BY THE LOCAL POLICE; ALLEGED TO BE "FIXED"

After complaints had been filed with the police department, plain clothes officers went to the grounds where a carnival is now showing in Lima and stopped the operation of five raffle wheels which were alleged to be "fixed." It is charged that the operators could stop them at any desired number.

Chief Roush Thursday said, "We will not allow carnival companies to come into Lima and do things which we will not allow our own citizens to do." He also said that a number of local saloonists had asked permission to sell paddles to raffle off their goods in order to sell their merchandise before the enforcement of the state dry laws.

Roush contends that if the Lima merchants are not allowed to raffle off goods there is no reason why carnivals or other persons should be allowed to run games of chance.

ADA MEN FINED

Scott McCafferty, 23, Ada, a mechanic, was fined \$10 in police court Thursday morning. He was charged with being drunk and disorderly. Charles Myers, 42, also of Ada, was given a fine of \$5, being charged with interfering with an officer. The fine was suspended by Judge Botkin.

CAN'T FOOL THE MAIL HANDLERS

Postmaster Sullivan Says Wet Goods Easily Detected—Shipments are Barred

Whether or not people contemplate shipping liquor into Ohio by the parcel post route cannot be determined, but post-office authorities are prepared to meet them half way, and stop them.

J. E. Sullivan, Lima postmaster, says that you can't fool a mail clerk when it comes to intoxicants. He can detect packages containing liquid joy with as much ease as the ordinary individual can see a bill thru an envelope.

"We have had several cases where intoxicants have been sent thru the mail," said the postmaster, "and I expect there will be more attempts after May 26th. It has always been unlawful to ship alcoholic liquors by mail under section 472 of the postal laws and regulations. The provocation will be greatly stimulated when the state goes dry, but if the ship pers knew the penalty, and the powers of detection possessed by the postal clerks, they would not resort to the practice."

"There is something about the feel of a package in which whiskey is shipped that tells the tale, and in the case of fourth class mail we are privileged to open and examine. It is customary to ship in cartons containing quarts, rather than in the more bulky gallon size. The fine of \$1,000 and two years imprisonment makes the practice unhealthy and unpopular, but it may be attempted, as it has in the past."

INJUNCTION GRANTED

T. E. Thompson, tailor at 110 east High street, has been granted a temporary injunction restraining Misses Minnow and Anna Meyer from building an addition on the side walk to their candy and cigar store, which is located in the entrance to the Holland Block. FIRE AGAIN BREAKS OUT IN METROPOLITAN BLOCK

Although it was at first thought that the fire which did so much damage to the Evans and Thomas Hardware store Tuesday night, had been completely extinguished, a blaze broke out again Wednesday afternoon. The fire was smoldering all day and altho a little smoke and much steam issued from the mass of debris throughout the day, Chief Mack thought that a steam line had been broken when the floor of the hardware store gave way.

Firemen immediately extinguished the fire with little trouble. Chief Mack is unable as yet to say what caused the fire originally.

FIRE TRUCK DAMAGED

When the engine apparatus of the Central Fire Department attempted to cross Main street on North street Wednesday evening, making a run, the truck was struck by a street car which was south bound on Main street, according to Fire Chief Mack. Three machines of the department had already crossed Main street and it is said by the chief that the street car failed to stop on the north side of the crossing. The truck was not damaged to any extent.

UTILITY CAPE IS LEATHER TRIMMED

BY ELOISE.

This cape will change the ideas of many of those women who say, "Yes, I like a cape if one can keep it for evening wear, but I think it is out of place on the street." It is only natural that the conservative woman would reject a wrap for every day wear which was made on the lines of evening coats and often the same materials and ornately trimmed. The business woman would not readily accept a wrap which made long gloves necessary and which was so fly-away as to be too cool for chilly days.

They were right at first those sensible people who would not accept the cape as a practical utility garment, but now they no longer have their same arguments, for many capes like this one have been designed which are minus all of the objectionable features. This wrap has all of the good features of the cape, with most of the bad features omitted. It is loose and graceful as to line and a perfect outer garment to throw over a suit, frock or sweater coat. It is not of the two-piece variety and therefore will "stay put." Cravenette is the material used and it is trimmed in tan leather, making it practical for rain or shine. Surely even the most prejudiced person will find no more suitable wrap for every day and none less suited for evening wear.

Pile Sufferers! Clever Ohio Chemist Says This Great Prescription Taken Internally Has Never Failed

Even chronic cases of 20 to 30 years standing, with profuse bleeding, have been completely cured in from three to ten days.

No discovery of recent years in the field of medicine has caused such a stir amongst the medical profession as the recent discovery that piles can be successfully treated and cured at home by a wonderful prescription known to druggists as Miro Pile Remedy.

It has been proved that an internal remedy applied or inserted into the rectum cannot cure piles and at the best only give temporary relief. This is also true of surgical operations which simply remove them after formation, but in no wise acts on the source of the trouble.

This prescription, although taken internally, is not digested in the stomach, but is rapidly passed on unchanged to the intestines in a short time, reaching the exact place where by its soothing, healing action, it first allays all inflammation and then by direct contact with all ulcers and piles, causes them to heal and disappear forever.

It's positively marvelous how speedily it acts. Blessed relief often comes in two or three days at most, even in cases with profuse bleeding that have resisted all known treatments and operation, really wonderful results have been accomplished.

The author of this amazing discovery desires all sufferers to know that he does not want a cent of anyone's money unless Miro Pile Remedy decisively conquers even in the worst cases and he has instructed druggists all over the country to guarantee it in every case of blind, bleeding or protruding piles.

IMPORTANT—What is known as itching piles are not piles in the true sense of the word, although this condition may accompany a true case of piles. For this condition Miro Pile Remedy has been prepared and in such cases it is not necessary to take the internal prescription.

TRIED RECIPES

Florentine Eggs in Casserole—Finely chop cooked spinach and season with butter and salt. Put one tablespoon spinach in each buttered casserole, sprinkle with parmesan cheese and slip into each an egg. Cover each egg with one tablespoon tomato sauce and one-half tablespoon parmesan cheese. Bake until eggs are soft and serve immediately.

Potato Rissoles—Wash, pare and trim potatoes of equal size. Let stand in cold water fifteen minutes. Dry thoroughly and fry in deep fat until delicately browned. Drain and bake in oven twenty to twenty-five minutes or until done. Serve with medium white sauce.

Pear Salad—Drain pears (do not waste juice)—use it for combination of oranges or other juices for next morning breakfast). Arrange on crisp lettuce leaves. Cover with French dressing. Garnish with strips of red peppers.

FOR THE BAKER

Orange Cookies—One-half cup butter or substitute, one cup granulated sugar, grated rind of one orange, one egg beaten light, one-half cup orange juice, three cups flour, two teaspoons baking powder, mix in the order given; more flour may be required. Cut in rounds, dredge with sugar, bake in a moderate oven. For a crisp cookie use one-quarter cup orange juice.

Crust Cookies—Crumbs together (like piecrust) three cups flour, three-quarters cup lard, salt. Then mix with it two eggs, one cup brown sugar, flavoring, one level teaspoon soda. Beat well together.

Dark Cake—One large cup brown sugar, two cups seeded raisins, one-half cup lard, one-half cup nut meats, one cup water, one-fourth cup molasses, one teaspoon cocoa, one teaspoon cinnamon, one-half teaspoon cloves, one-half teaspoon salt. Boil three minutes. When cool add two cups flour sifted with one-half teaspoon baking powder. Add one teaspoon soda dissolved in a little hot water. Bake one hour in a slow oven.

DISCOVERIES

Can Covers—Do not throw away the glass covers of your broken tin cans. They make good covers for glasses of medicine standing in the living room or for any odds and ends of food set away in cups. Some of them will be found to fit certain tin can covers and cups well and safely. Use only those that fit for such a purpose. Others are useful for holding down the corners of a white cloth which you have basted laces to red on the grass to whiten.

Do Not Waste the tough ends of parsnips Peel them until the juicy part appears and put these ends in a half hour earlier than the rest. They will become tender and the tough can be used for soup by boiling down.

USE YOUR EGG-BEATER

With the egg-beater you can make delicious fish out of that despoiled wholesome food—dried fruit stewed prunes has long been a word of contempt signifying board-

ing house desserts of the lowest order. But if you will impress the egg-beater into service, presto! you have prune whip, a delicious confection which is worthy to grace the table at a company dinner!

The egg-beater, too, will improve the breakfast cocoa considerably. Many people cook cocoa or chocolate so that it is either too thick and heavy or otherwise flat through lack of sufficient cocoa foundation. But if you will cook your cocoa, being careful not to let it boil, then just before the boiling point is reached add a pinch of salt and a few drops of vanilla, and beat with the egg-beater, you will have a delicious beverage which not even the soda fountain clerk can improve upon.

For quick, substantial beverages, the egg-beater is indispensable. Try beating up sour milk with the egg-beater after it has been thoroughly chilled, and you will have a refreshing, wholesome drink equal to butter milk. Egg beaten up with milk is a complete lunch in itself. A few spoonfuls of cream whipped into a soup will enrich it and quickly transform it into a most palatable cream soup.

IN SUSIE SMART'S DAILY MAIL

Dear Miss Smart: I have a sister twenty years old. She has been married. And she has been keeping company with a young man whom I am awfully opposed to. He is an Italian but was born in this country. I have often talked to her but she gets mad at me and she seems very much attached to him. Please tell me what I can do as I don't think she is doing right by her own people.

Answer—As long as you have nothing against the young man but his nationality I am afraid I will have to suggest that you change your mind concerning him. If he was born in this country he is a citizen of this country. Your sister has the right to choose her own friends.

Dear Miss Smart: (1) What are the addresses of Charles Ray, William Duncan and Montgomery? (2) Are they married?

ANSWER:—(1) Address Charles Ray, Ince Studio, Culver City. William Duncan, Vitagraph Studio, Los Angeles, Cal. Cannot give you address of Montgomery without knowing his first name.

(2) Charles Ray and William Duncan are married.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

BAN LIFTING NOT TO AFFECT LIMA

Local Drys Not Worrying Over President's Recommendation, Kilgore Says

President Wilson's recommendation that the war time prohibition ban, insofar as it applies to beer and wine, which was to become effective July 1st, be lifted, caused little worry to Lima drys.

"It only means a further delay to National prohibition," said J. Warren Kilgore, a prominent dry advocate, "inasmuch as next January the amendment to the national constitution goes into effect and the whole country goes dry."

"We had looked for this war-time measure to assist us in enforcing prohibition within the confines of the state filed at Cleveland by the Ohio

state of Ohio, and it now becomes more necessary than ever that we have sufficient legislature passed to enforce the law.

"Instead of 48 states becoming dry July 1st, there will be the former number of 28 wherein the people have voted dry, with the addition of Ohio."

"I do not know that this generation will live to see the day when a man cannot satisfy his craving for liquor, but it will become more and more of a difficulty for him to procure it. He will be forced to sneak up a back alley and give the secret rap, in order to get liquor, and there are a vast number of people, who drink now, but would not care to resort to those methods of procuring drink."

CHECK PROSECUTION OF CHIROPRACTORS OF OHIO

Further prosecution of chiropractors over the state will be stopped pending the outcome of an injunction prohibition within the confines of the state filed at Cleveland by the Ohio

Chiropractors Association to prevent the State Medical Board from enforcing the Platt-Bills law regulating the practice of this class of healers, according to Z. N. Wise, local chiropractor.

Cleveland has been selected for the filing of the suit due to the prosecution of several of the members in that city. Local chiropractors say that the law is unconstitutional.

Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poison, and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who, simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot-water act on the skin, cleansing, sweetening and refreshing, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood while the bowel pores do.

SPORT SNAP : SHOTS :

Bob Shawkey stands out as the star of the Yankees outfit just at present. It wouldn't surprise the Gotham fans if he turned out to be a whale of a winner this year.

In the first eleven, contests the Huggins crew played this season Shawkey broke into the game five times. He started two games and was sent into the breach three times. He came out of his five appearances with two victories and two defeats. Although he checked the onslaught of the opposition in the other battle, he is not credited with a win or loss.

Shawkey's first bow was on April 29. He took up Jack Quinn's burden in the last of the ninth against the Mackmen. He held Connors' crew in check until the Yanks drove home the needed run in the twelfth. He fanned five men in the four innings, allowed one hit and walked one man.

The next day he relieved Thormahlen in the sixth with the cushions packed. He kept the Mackmen from scoring that inning and in the next three rounds held them to two blows and a tally. The Yanks won.

Three days later Bob started against the somewhat well known Babe Ruth and lost a tough game, holding the Redlegs to six hits. The Sox got to him in the last round for a double sacrifice and single for the winning tally.

Three days later Shawkey tried to save a game for Thormahlen. Bob forced the Athletics to go into extra innings on a hit batsman, steal and single. At that, a perfect peg in that last round might have saved the day for him.

Two days later Shawkey hung up one of the best victories of the season when he let the Mackmen down with one lone hit, a single in the fourth inning. Bobby Roth spoiled a no-hit game for him.

The two greatest players the St. Louis big league clubs boast have failed to shine so far in the campaign. George Sisler, with the Browns, and Rog Hornsby, with the Cardinals, have failed to hit their stride so far. Sisler collected eight hits in his first ten games, setting an average of .229. Hornsby managed to get a .220 average, getting nine wallops in his first thirteen games. Both are .300 hitters normally.

This young hurler Causey, with the Giants, is doing remarkable work despite the fact that his full name is Cecil Alkernor Causey. One of his feats so far this season was his three-hit game against the Dodgers. But for three hoots by his teammates Causey would have blanked the opposition. The weather was raw that day, too, which made the kid's performance all the more remarkable.

There may be quite a goodly number of better hitters than Jim Shaw in the American league but he had it on them all for a flying start. Three of his first four hits were home runs. He slammed all of them into the left field bleachers at Philadelphia. We haven't heard of any debut that beats this.

FISTIC SPORT GETS BOOST FROM ARMY

When General Pershing spoke to the distinguished assemblage attending the boxing show at the Cirque de Paris the other night, when the ring championships of the A. E. F. were decided he expressed in a few words the growing belief in regard to the boxing game.

"The result of this type of athletics is sure to create a higher tone in all sports," he said, "and the fairness and cleanliness of these bouts is something of which we should all be very proud. Two million men are going to carry back home a better notion of what clean sport should be."

The boxing game was given a mighty boost, not only from the calibre of the sport shown, but from the class of spectators, which included some of the most notable and distinguished people in the capital city of France, in both military and diplomatic circles.

The governor general of Paris was represented by General Pilot, Prince Leopold of Belgium and Count Oultremont were in General Pershing's box.

Consul General Tharkary and Ad-

miral Benson were also enthusiastic spectators. The following American generals witnessed the milling: Haris, Lewis, McKinstry, Ourfee, Flske, Connor, Edwards, Startord, Nolan and Brewster.

Just before the last bout Colonel Johnson introduced General Pershing.

Every sitting, standing and hanging on space around the big hall was occupied. A couple of score of doughboys who could not find room anywhere else climbed thru the open skylights.

Seven championships were decided. The champions are:

"Babe" Asher, bantam, Second Army, from Detroit.

Leo Patterson, lightweight, S. O. S. Joplin, Mo.

Bob Martin, heavyweight, LeMans, from Akron, Ohio.

Gene Tunney, light-heavyweight, S. O. S. from New York.

Billy Kieck, welterweight, S. O. S. from New Orleans.

Jackie Clarke, middleweight, Second Army, from Philadelphia.

John Bundy, featherweight, Third Army (won by default), Pittsburgh.

PROMISES FAST GAME SUNDAY

The Chicago Keystones will be the attraction at the Murphy street ball lot Sunday afternoon. This club is rated as one of the fastest aggregations in the Windy City and will no doubt furnish some strong opposition for the Independents.

The second game of the season should be much more interesting than the opener, considering the weather which prevented any pre-game workouts for either Springfield or Lima on the condition of the grounds. The many fans who attended the initial encounter however were not disappointed at the showing and are of the opinion that some lively struggles will be staged in Lima ere the season draws to a close.

There was considerable disappointment because of the failure of Sykes and Mullen to show up but Sykes was unable to be present owing to illness. Mullen got lost somewhere between Lima and Delphos and has not been heard from since. Sykes writes that he will be here for sure next Sunday. Even Fogerty, the ump, was laid up but he reports the regaining of his health and expects to handle the indicator Sunday.

The attendance at the opening game gave the management assurance of proper support for a real team and it is the aim of Manager Holleran to furnish the same, for such is needed to oppose some of the teams which are booked for early dates with the local line.

LEONARD DROPS ERNE IN SIXTH

TRENTON, N. J. — For four rounds Wednesday night at the Trenton A. C. George (Young) Erne, of Buffalo, held his own against Bennie Leonard, world's lightweight champion. Then in the fifth round Leonard began to show his class and with lightning left jabs and a bombardment of stiff right hooks had Erne on the brink of dreamland at the bell. In the first minute of the sixth round, with cool, deliberate feints, Leonard drew his man into position and a short right to the jaw put Erne down and out.

Watching the Scoreboard

Wednesday's hero — Gene Packard. Pitching his first game of the season, he shut out the Cardinals for the Phillies 6 to 0.

The Red Sox scored five runs all at one crack, but the Tigers took several cracks and accumulated six.

A pop fly that went for a double, sent the Senators down to another defeat at the hands of the Browns 1 to 0.

The Athletics dropped another, Cleveland taking the long end of a 7 to 2 count.

Timely hitting and the Braves were responsible for a Pirate victory 4 to 2.

NOT ILLEGAL TO STORE UP LIQUOR AFTER MAY 27

COLUMBUS.—It is not illegal to store up liquor or to ship it outside of the state after May 27, Attorney General Price ruled Wednesday in an opinion to the state liquor license commission. Price also ruled that saloonists are not entitled to a rebate on their \$1,000 license fee for Sunday, the last day of the old license year.

Rebates are coming to saloons, however, that were closed by city, county, state or federal order for any period, including the influenza epidemic.

WILL WILLARD BE FAVORED

BY H. C. HAMILTON

NEW YORK — Quite a bit of reasoning on the loss of boxing titles by referee's decision in bouts that went the limit, is being done these days.

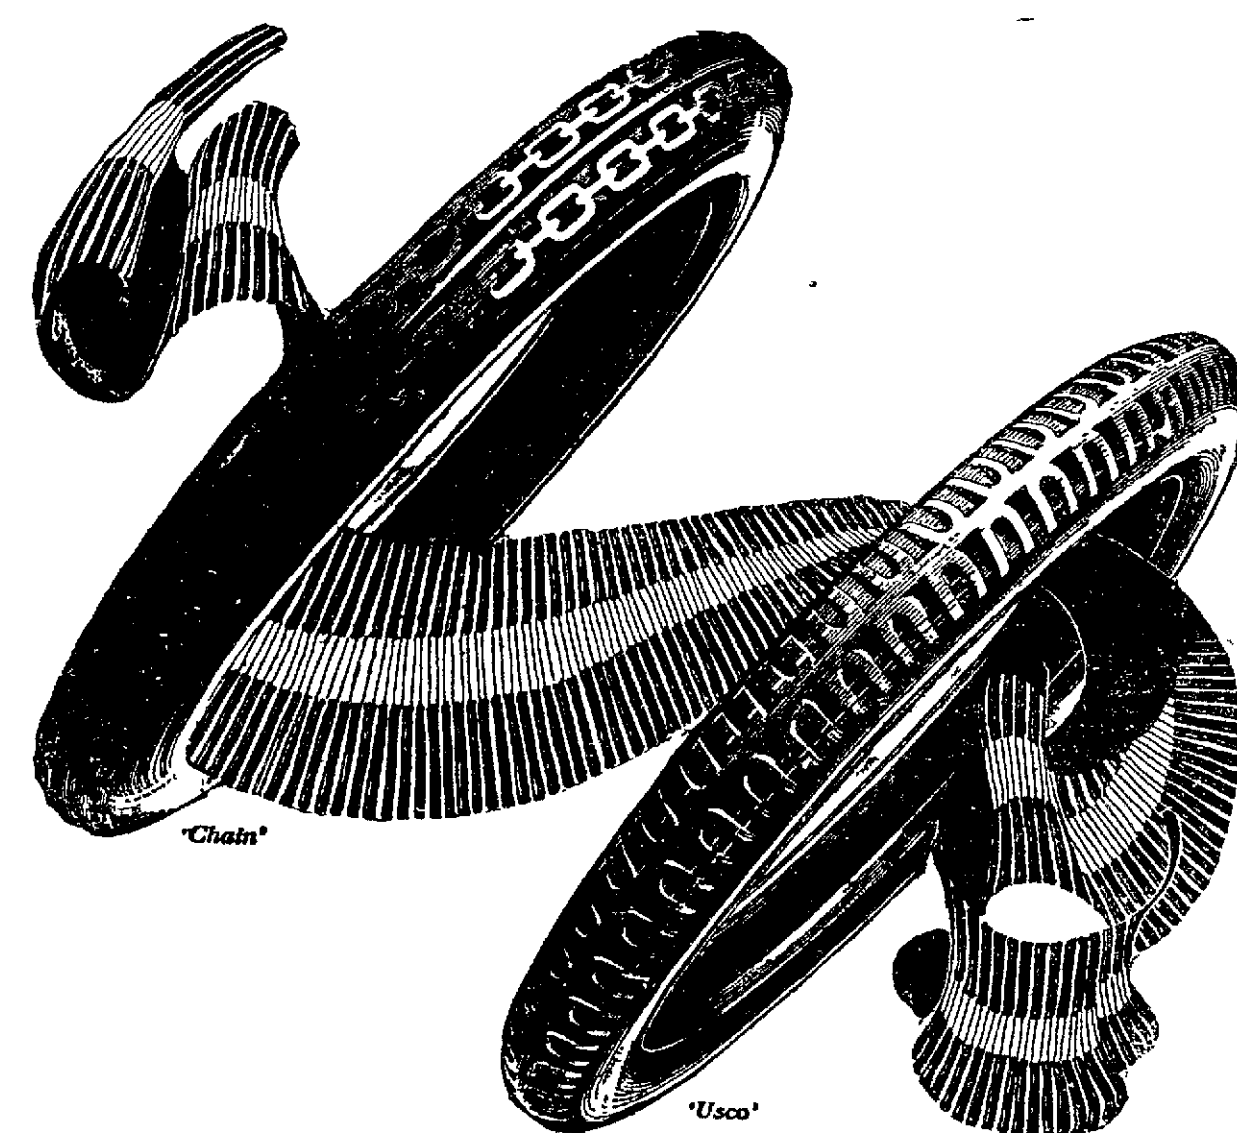

It is contended by some that it would not be fair to Jess Willard to take his title away in a decision at the end of 12 months unless he was beaten very badly. Jack Kearns

had something to say about that a short time ago—most interesting comment.

"I am sending Jack Dempsey into this battle to win the world's championship and I believe he can do it with a decision on points if he doesn't knock Willard out in the limit," said Dempsey's manager. "Of course, I believe Jack will win with a quick knockout. But you can bet your last nickel that I never will agree to let Dempsey go into the ring with a referee who is likely to have pity on Willard and call the bout a draw if Willard isn't beaten badly. If Dempsey wins on points he must have the title and I don't believe Willard would have it any other way."

There is a lot of sentiment twaddling spread around a champion. If he is not whipped to a frazzle, as a rule referees try to "protect" his title. But there is the recollection of Johnny Kilbane's 20-round victory over Abe Attell, when he won his championship and Freddie Welsh's triumph over Willie Ritchie. These bouts apparently were settled on their merits and championships changed hands without knockouts. Just why a heavyweight champion should be treated differently isn't clear.

Johnny Kilbane, featherweight champion, has cancelled several scheduled bouts on account of the illness of his daughter, who is seriously taken with pneumonia Monday. Kilbane was to meet Larry Hanson, Joey Fox, Young Chaney, and several others within the next month, but they have been called off for the time being.

Lorain is all tickled over the possibilities of possessing a coming champion. Alvah Miller looks good in the bantamweight class, and claims he can make the featherweight class, also. He is preparing to go after the champs in both classes, and is getting a lot of encouragement from Lofain boosters.

Victor Moore, the welterweight who put Charley White to sleep in the sweat long ago, is on a visiting trip thru the north country. He lives in New Orleans, but came north ostensibly to witness the Pal Moore-Benny Cheyaz bout at Memphis tonight, but actually to look over the possibilities of getting matched with Billy Ryan, or some other equally strong welterweight. Victor is a brother of Pal Moore, who recently met K. O. Mars.

Don Curley and Frankie Nessler will go 15 rounds at the Dayton Gymnasium Club tomorrow night, and a fast and lively skirmish is looked for. The important thing for Lima fans to note is that Young Webb, who fights a semi-final with Mike O'Leary, had the satisfaction of putting Curley to the mat some time ago with a shot on the jaw. O'Leary is going strong, and will be seen in Lima before many moons, according to the best dope on future boxing plans.

Artie Root is offered a 20-round bout with Kid Koster at New Orleans.

June 4, but doesn't know whether to accept or not. He was signed up for a bout with Koster a year ago and Koster ran out of the engagement. Artie and his brother-manager, Porter Root, were starting for the train south when they got the wire cancelling the date. "Artie did all that training and got nothing for it," says Porter. "Now we have no assurance Koster won't do the same thing over."

CHALONER DECLARES HE HAS PROVEN HIS SANITY

NEW YORK — John Armstrong Chaloner in winning his suit for libel against the New York Evening Post, declared Thursday he had been proven sane and that property now can be left by him to the Universities of Virginia and North Carolina without fear of interference by members of his family. A jury awarded him damages of \$30,000 for libel in a reference to him published in the Post.

We'll Leave It to You to Decide

When you buy a Sunday newspaper there must be some compelling force back of your buying judgment. You buy a Sunday newspaper (or you ought to, at least), in the same way you buy a suit of clothes. You want the best there is for the money.

THE LIMA SUNDAY NEWS

is studied out, built up and designed for all Northwestern Ohio. Its policy is to represent every activity in which intelligent human beings may be interested, AND IT HAS DONE THIS.

For **5c** a Sunday

You get the most complete Sunday newspaper issued in Northwestern Ohio. A proud boast, you may think, but we believe the LIMA SUNDAY NEWS merits it.

Now For Next Sunday

America Pits New Wheat Against Bolshevism

One lone American, a man whom thousands of you probably never have heard of before, may knock the bottom out of Bolshevism. His name is Julius H. Barnes, and he is neither political spellbinder, Socialist soap-box spieler nor ambassador extraordinary to the courts of Omsk, Popocatapell, Timbuctoc or Oshkosh. He is an American business man whom Uncle Sam has designated as the new federal wheat director of the United States of America, which means, in plain words, that Julius H. Barnes is pretty much the world's best bread man. And since the hunger germ has been found, and it is held to be the basic cause of Bolshevism, it may be Mr. Barnes is the man after all to silence the Red Guards' machine guns with batteries of long American loaves—bread "like mother used to make," all nicely coated with creamy butter and maybe another layer of good old made-in-America apple butter!

The Boys and Girls Page, always an entertaining feature for the younger members of the household runs true to form Sunday.

Sports, theaters, financial, telegraph and cable news are all taken care of as they should be.

The world is brought to your reading table, with high class reading and entertaining features to make it well worth your while to select.

"PEACE CONGRESS," NOW IN SESSION, MUST SETTLE MANY TOUGH PROBLEMS

View of opening session of special session of Sixty-sixth Congress. Arrow points to Representative Gillett of Massachusetts, new speaker.

President Wilson's recommenda-
tions, in his message to the new
congress that the war prohibition
act be repealed as far as light wines
and beer are concerned and that
the railroads be returned to their
owners are only two of the impor-
tant issues the new congress must
handle. The special session which
opened recently must also pass on
the peace treaty. All in all, the ses-
sion promises to be even more
stormy than the ones of the congress
which handled the mass of war leg-
islation.

Short Shavings

A captured German major was assigned to an American soldier to be taken to the prison camp upon reaching his destination the major

made a close observation and decided to enter, indignantly remonstrating that he would not associate with privates. In an instant the Yank ripped off the major's epaulettes and replied, "You're busted now, get in there!"

Booth Tarkington was strolling around an artistic Red Cross fair when two pretty "flappers" of sixteen or so came up and asked him for his autograph.

"I haven't got a fountain pen," he said, much flattered. "Will pencil do?"

"Yes," said the older "flapper," and he took out a pencil and signed his name in the morocco-bound

book that she had presented.

The "flapper" studied the signature with a frown. Then she looked up and said:

"Aren't you Robert W. Chambers?"

"No," he said. "I'm Booth Tarkington."

The "flapper" turned to her friend with a shrug of disgust.

"Lend me your rubber, May," she said, according to Mr. Tarkington himself.

Amos J. Cummings and Ernest Afloat.

Jarrold were once in a pilot boat during a great storm. The former lay on a bunk intently reading. The boat gave a fearful lurch and careened until it seemed that she must turn completely over.

"This is awful, Amos!" said Jarrold. "I'm going to put on a life preserver, for the boat can't stand it many minutes longer!"

"Oh, keep quiet and let me read, Mickey!" said Cummings, never lifting his eyes. "The men on this boat draw a regular salary to keep her

A man from a bone-dry Arkansas community went to a wet Missouri town and was invited by an acquaintance to have a drink. In the saloon the friend asked:

"What are you doing to ha: s?"

"Have?" dreamily returned the visitor, blinking at the glorious ar-

ray of barrelled and bottled goods. "I ain't going to have noth'n'."

"What do you mean, Gabe? You won't have a drink after coming all this distance?"

"None!" answered the Arkansawyer. "There ain't no such place as this. I'll wake up in a minute."

La-may Face Powder Is Harmless to the Most Delicate Skin

Now you can use a pure face powder that is guaranteed not to injure the most delicate baby skin. It will not cause enlarged pores, blackheads and irritations. And, it really stays on better than any other face powder. It does not contain white lead or starchy rice powder. (Poudre de Riz) to make it stick. White lead poisons the skin and rice powder turns into a gluey paste that encourages enlarged pores, blackheads and rice powder pimples. The specialist who makes this improved powder uses a medicinal ingredient that doctors use to heal the skin. In fact, this new powder helps to prevent and reduce enlarged pores and pimples. It is also astringent, discouraging flabbiness, crows' feet and wrinkles. Because it is pure and because it stays on so well this La-may

powder (French Poudre L'Amay) is now used by over a million American women. The large size is only fifty cents and the trial size is twenty-five cents. Remember, La-may is guaranteed absolutely pure. Five thousand dollars reward is offered any chemist who finds it contains white lead or rice powder. Refuse substitutes. Your common sense will tell you when you are offered a substitute. It is sure to be a demonstration trying to sell an inferior powder that pays a big commission. When you use this absolutely pure La-may and see how splendidly it beautifies your complexion, you will understand why it so quickly became the most popular beauty-powder sold in New York. Save this notice. La-may Rouge is also pure.

Dr. Tells How to Detect Harmful Effects of Tobacco

Try These SIMPLE TESTS

New York Doctor Connor, formerly of Johns Hopkins hospital says. Many men who smoke, chew or snuff incessantly and who are seemingly healthy are suffering from progressive organic ailments. Thousands of them would never have been afflicted had it not been for the use of tobacco, and thousands would soon get well if they would only stop the use of tobacco. The chief habit forming principle of tobacco is nicotine, a deadly poison which, when absorbed by the system slowly affects the nerves, membranes, tissues and vital organs of the body. The harmful effect of tobacco varies and depends on circumstances. One will be afflicted with general debility, others with catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, mental confusion, etc. Others may suffer from heart disease, bronchial trouble, hardening of the arteries, tuberculosis, blindness or even cancer or the common affliction known as tobacco heart. If you use tobacco in any form you can easily detect the harmful effects by making the following simple tests. Read aloud one full page from a book. If, in the course of reading your voice becomes muffled, hoarse and indistinct, and you must frequently clear your throat, the chances are your throat is affected by catarrh and it may be the beginning of more serious trouble. Next, in the morning, before taking your usual smoke, walk up three flights of stairs at a regular

pace, then stop. If you find that you are out of breath, your heart beat is forced, trembling or irregular, you may be a victim of functional or organic heart trouble. If you feel that you must snore, chew or snuff to quiet your nerves, you are a slave to the tobacco habit, and are positively poisoning yourself with the deadly drug nicotine. In either case you have just two alternatives—keep on with the self-poisoning process, irrespective of the dangers and suffer the consequences, or give up the habit and escape the dangers. You can overcome the craving and stop the habit in a very short time by using the following inexpensive formula. Go to any drug store and ask for Nicotol tablets, take one tablet after each meal and in a comparatively short time you will have no desire for tobacco, the craving will have left you. With the nicotine poison out of your system your general health will quickly improve.

Note—When asked about Nicotol tablets, one of our leading druggists said "It is truly a wonderful remedy for the tobacco habit, away ahead of anything we have ever sold before. We are authorized by the manufacturers to refund the money to every dissatisfied customer, and we would not permit the use of our name unless the remedy possessed unusual merit." Nicotol tablets are sold in this city under an iron-clad money-back guarantee. All up-to-date druggists, including the Enterprise and the Hunter Drug Stores.
